Prominent Utah Stock Rapidly Climbs Market Ladder Here and Abroad.

JUMPS FIVE DOLLARS ON BOSTON CHANGE

Conditions Combine to Elevate Daly West Most Encouragingly for Owners.

The feature of the day on 'change was the great rise in Daly West stock, sales seing made at \$20, which was an advance of 34 25 over the market price of Tuesday When the news reached Salt Lake that the Daly West stock in Boston had risen to \$21.50, a great flurry was created along the local 'change circles. The total sales for Wednesday reported from Boston was 10,708 shares, and while there were but few shares sold in this city, the situation was a most interesting one.

Simply Another Link.

There are several theories advanced seeking to explain this great advance in this great Utah stock, it proving simply one more link to the long chain af hour composed of Utah stocks. The great stowing so recently made is of the utmost significance to the State, and to view "Ourselves" in a mining way as others see us should give the deepest satisfaction.

Reasons for Rise Given.

Reasons for Rise Given.

No doubt the encouraging condition of the Ontario drain tunnel has made a deep impression on Eastern investors, for through it is seen the opportunity to reach the lower levels of the Daly West ground. This fact gives promise that great wealth will be secured which here tifore has not been possible of attainment. It is thought too that the extensive holdings of Little Bell stock by the Daly West has given some perceptible impetus to the latter stock on account of the promising outlook of the former.

American Party Victory.

One of the local brokers draws an object lesson from the uniform rise in Utah stocks throughout the East and states that this tendency was first noticed after the victory of the American party in Salt Lake. Eastern capitalists have always been impressed with Utah mines and now that money is to receive its just reward regardless of who is the spender there will, no doubt, be easier times in the financial circles of the State.

Good Day on 'Change.

There was a great deal of trading on 'change Wednesday, over \$17,000 representing the sales. With a rising tendency to the market, and a great amount of activity in all the prominent mines in the State, the coming winter promises to be a record breaker for the mining men. The day closed with the following quotations and sales

### No Poison in Chamberlain's Cough

Remedy.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had, and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by all leading druggists.

# LITTLE BELL MINE SHOWS UP WELL

DALY-JUDGE MILL

**WILL START SOON** 

From Chicago, Gives First

Authentic News.

to Adjust Itself Before

Mill Begins.

round the country about the renewal

of everything connected with the great

Daly-Judge mine, but nothing definite

has heretofore been positively known as

business, returned to Sait Lake Wednes

New Superintendent of Mill.

Rew superintendent of Mill.

Reports from the property are to the effect that James T. Kescel has resigned his present position to assume charge of the Daly-Judge mill, and that such improvements and repairs as are necessary will be made from time to time as found convenient. The resumption of the Daly-Judge mill will be of great benefit to the people of Park City, who have hailed the report with great satisfaction.

SILVER PICK ORE.

Owners of Lease Open Up Rich Vein

at Extremely Shallow Depth.

SILVER KING CONSOLIDATED.

Superintendent Keetley Expects Soon

two feet.

The ore is a suiphide upon which is massed ruby silver, and is said to assay in the neighborhood of \$500 per ton. The vein proper is over ten feet wide, and average values from it have been \$250 per ton for some time. If the new strike is a part of the Brougher vein, and it is confidently thought to be such, this latest find gives a tonnage which is almost inconceivable in extent.

The sensation of the week in Goldfield

tion of the property's mill, he said Waiting for Smelter.

DATE NOT DEFINITELY

Extensive Development Work Shows Valuable Ores; Contact Not Reached.

One of the prominent properties in the State in which many Sait Lake people are interested, and about which very little has been said lately, is the Little Bell, and any authentic information about this property at this time will be of interest to Salt Lakers. Mr. Solon Spiro, who is deeply interested in the Littie Bell, and who is authority on the same, was asked as to the prevalling

the Bell, and who is authority on the same, was asked as to the prevailing conditions at the mine. He stated that work was progressing nicely.

The upraise at the 700-foot level is stated as being in ore, but the contact proper has not yet been reached. This upraise at present is within forty or fifty feet of the contact, and the ore so far encountered is of a valuable and promising character, assays averaging 125 ounces in silver, with generous quantities of lead and copper present. The ore streak is twelve inches wide.

The drift on the main fissure on the 700-foot level has been followed on ore for a distance of 200 feet, the ore carrying 40 per cent lead, 30 ounces of silver and 2½ per cent copper. It is the purpose of the drift to intersect the contact, which is estimated to be fifty or more feet distant from the point already reached. At the 300-foot level an upraise has been started to catch the fissure, and it is expected to break into the contact at 300 feet. Should the management break into an ore body soon, as is confidently anticipated, they are sanguine that the Little Bell will be one of the greatest producers of the camp.

#### AERIAL TRAM IN WINTER.

Will Solve Transportation at Time When Roads Are Heavy.

Henry M. Crowther, general manager Henry M. Crowther, general manager of the Continental Alta, has returned to this city for apending several days on the property or reports that a much-needed mowstorm has rived at Alta, and that the camp was in the est of condition in a mining way.

Everything at the Continental Alta was bout the same as usual, and that great impovements are being made around the various ines. The Fingstaff management is considering the advisability of using the aerial tramaly of the Continental for the purpose of inging their ore over the three miles at a wing of \$1 per ton.

Mr. Crowther expressed the belief that his

ging their one over the three and of it per ton.

If Crowther expressed the belief that his pany was able and prepared to take ore a any of the mines at an average saving to m of it per ton, without interruption by the ter shows. The train passes irributary circally to all the preperties in the camp, i whiter hauling over the roads is practically.

and winter hauling over the roads is practically impossible.

He reports that the Columbus Con, people have finished their ore bin and their fine bunkhouse, and their campaign of building is about over. Visitors to the recent extensive improvements made on the Columbus Con, have most complimentary respects to give about the new buildings, which are modern in every respect. The new bunkhouse very nearly assumes the dignity of a hotel, so modern and up to date in all its appointments has the management made the building. It is three stories in height, and can accommodate over 100 men. It is thoughly equipped with all the conveniences of a modern haiel, the cost being over \$12,009.

San Francisco Mining Stocks.

San Francisco Mining Stocks.	Copper Letter From New York.
SAN FRANCISCO Nov. 12 — The official closing quotations for mining stocks today were as follows:   Alta	James A. Pollock & Co., bankers and brok- ers are in receipt of the following New York letter over their private wire:  "It is agreed by experts that copper stocks above ground have been pretty well cleaned up, and some of the companies are solling ahead the copper that is in the mines. The principal companies are contracted for far into 1986. The price for Lake is now advancing and a quotation of 15 cents a pound is considered a possibility of the not distance future. In- creased dividends have been the natural con- sequence of large profits reaped by the differ- ent companies. Under these circumstances it is confidently predicted that the January divi- dend on Amalgamated will be increased, and that the 6 per cent basis that is expected to be extablished will be a permanent one. The most sensational advances have been scored by Ara- conda. No fact has come to light to explain the great riso in the price of this stock this

Boston Copper Letter. James A. Policek & Co., bankers and brokers, received the following copper letter
Wednesday from Hoston:
"Trading was general, with commission
houses very active on both sides of the market. Daly West came in for a sensational
move, advancing very rapidly. North Butte
continues to reach a new high level each day,
accompanied by rumors of an smalgamated,
with the Amalgamated Copper company. The
demand for the general copper-share list was
excellent and the close was firm. Traders
were inclined to work for a reaction in the afternoon."

## Ore Shipments.

Ore shinments as reported by the samplers Wednesday were as follows: Pinneer, two from Blingham and one each from Alts, Bingham and Nevada. Taylor & Brunton, eight from Intic, two from Nevada and one each from Bingham, Montana and Linho.

## WILLIAM ORR DIES AT DENVER HOME

Cyanide Process Specialist J. J. Daly, Recently Returned Passes Away: Well Known in Salt Lake.

Intelligence has just been received at

the local offices of the Glasgow and Western Exploration company limited of the death of Mr. William Orr in Denyer, Mr. Orr was the specialist on the cyanide process, and the general manager of that process in America.

Mr. Orr, before being called to be general manager of this company, was for many years its representative here in Salt Lake, and he is not only well and most favorably known in this city, but throughout the entire Western country where the McArthur Forrest cyanide and other kindred processes are in vogue.

His loss will be deeply regretted by a large number of close friends who knew him as a man of outstanding ability and integrity in his profession, and a man of most pleasing personality. Among the interests in which he labored as the expect or dean he will be especially missed. the local offices of the Glasgow and DETERMINED AS YET Waiting for Smelter Situation Numerous rumors have been flying

We are waiting for the smelter situation to clear up before forming definite plans in the matter." research in the past fave been of the more necrosting and valuable character. Man ompanies are now engaged in pushing deve-poment work most assistancely and some ex-remely high values are rewarding the effor-of those whose time and money have bee-pent in proving the true worth of the section

#### VISITS THE MOSCOW.

Mat Cullen Goes to Property to Superintend Shipment of Ore.

Mat Culler, accompanied by Mrs. Cullen, returned from the East on Sunday morning. Returned from the East on Sunday morning. Beaver county last night. He will superintend the shipment of 300 tone of first-class are from that fanyous property.

The Moscow, within the past four months, has developed into a first-class are exceeded. The values are gold, silver, lead and copper.

Power Company Articles.

The sensation of the week in Goldfield was the strike on the Silver Pick property, located on the great rim which includes such mines as the Combination. Jumbo, Florence and others. Mining men of that camp see in this latest development greater hope for the district than in any recent happening.

Owners of a lease on the property have opened up a vein that is nine feet wide at a ridiculously shallow depth, assays reaching as high as \$170 per ton. It is said that the ore closely resembles that of the famous Jumbo mine and near by properties that have contributed so much to Goldheld's fame.

The strike has had a most stimulating effect upon the district, and no doubt adjacent property will now be looked to for the purpose of developing similar finds. A large company at Goldheld's is now negotiating with the owners of the fortunate lease, and an exchange of interests is looked for within a short time. The induta Mining and Power company, a Denver corporation, which will do business at Moffat, in the Ulntah Indian reservation, filed articles of incorporation in the office of the Secretary of State Wednesday

Wednesder:
The company is capitalized for \$50,600, divided into shares of the par value of \$1. The company will carry on a mining and power business. The directors are James E. Birch, C. R. Hutchinson, J. Thomass Mailoy, Norman R. Vote and W. B. Shatfue. Ore and Bullion Report.

The ore and builton report for Wednesday, as given by McCornick's blank, was as follows: Dre. 335,100; builton, 458,400. Sliver is quoted at 64% cents; lead. \$3,5096.17.

Mining Notes.

Edward H. Gore of the Utah Con., who was ecently married in Kansas City, has returned to this city with his bride. W. Zeigler, superintendent of the Ohio Cop-ranine, was in the city Wednesday. He ports that work is progressing in the shaft on the 600 to the E00-foot level.

Pour or five cars of concentrates are ex-scled from the Red Wing mine within the ext few days. Capt. Tibbetts left for the mines Wednesday

Manager Spooner of the Mount Masonic roperty in Park City will place the order this ming week for the hoist and air compressor bith will be installed at the mine. John C. Harrow of Evanston is in Salt Lake

John C. Harrow of Evansion is in Sail Lake.

J. K. Parsons, president of the Southern Oupper company in Beaver Lake district, to miles above Milford, accompanied by Capt. Edward Wills, apperintendent, came up from the mines on business Wednesday. Mr. Wills, an experienced miner and engineer, is enthusiastic over the certainty that a rich mine awaits their endeavors by deep mining. J. OBERNDORFER, STOCK BRC-KER, 161 S. Main. Tel. Bell 792.

Treasury Statement.
